An All-Woman Old Time String Band, Mother Logo toured and recorded between 1977 and 1987. Their sweet harmonies and tight picking earned them a spot on the bill with headliners like Byron Berline, Bill Monroe, The Country Gentlemen, The Texas Playboys and scores of big names bands, old time and bluegrass alike. The original tapes and records from 1985 were digitally remastered so that their unique sound could be enjoyed again. Also included is a previously unreleased cut of San Antonio Rose.
